Micronet 5-Port PoE Switch with 4 PoE Port's: SP6005P4

The SP6005P4 PoE Switch, is specifically designed for SOHO/enterprise and high-power-demand markets. The SP6005P4 supports IEEE 802.3af and pre-802.3at standards for Power over Ethernet (PoE) with the maximum power delivery up to 48 Watts. That makes it suitable to various applications that demand for remote power feeding and meet high level requirement for power. In addition, the SP6005P4 is equipped with DIP switch for per-port PoE enabled/disabled. It effectively helps allocate power for connected devices and enhances network management.
